Media Release

Mach Conferences secures one of the largest group movements from India to New Zealand, valued at approximately ₹17 crores, from a reputed BFSI Institution

Delhi NCR, February 21, 2026: Mach Conferences and Events Ltd. (BSE: 544248), one of India's leading listed MICE and travel management companies, has secured a prestigious international MICE order valued at approximately ₹17 crores from a leading BFSI institution.

The program, scheduled in the first week of April 2026, will involve the movement of approximately 600–650 delegates from India to Auckland, New Zealand for a 3-night engagement. The scope of services includes end-to-end travel management, accommodation consolidation, ground logistics, conference production, curated destination experiences, and gala event execution.

This order is expected to be among the larger corporate incentive group movements from India to New Zealand and reflects the Company's strengthening capabilities in executing complex, large-scale events across long-haul international destinations.

Commenting on the development, **Mr. Amit Bhatia, Chairman & Managing Director, Mach Conferences & Events Ltd.:**

"This order reflects the continued trust that leading BFSI institutions place in our execution capabilities and global partnerships. Managing a movement of this scale to New Zealand requires strong operational expertise, meticulous planning, and seamless international collaboration. We are proud to further strengthen our global footprint through this prestigious assignment.

New Zealand, being a long-haul MICE destination, involves significant logistical and operational complexities including large-scale airlift management, visa coordination, inventory consolidation, and on-ground production. The award of this order underscores Mach Conferences' positioning as a globally capable Indian MICE operator.

The Company continues to witness strong momentum in the international MICE segment, particularly from BFSI and large corporate incentive programs, strengthening its order book visibility for FY 2026–27."
